

Signed. Sealed. Integrated.

Seamlessly Integrate DocuSign with ServiceNow®

eSignifi is a ServiceNow App that adds the convenience and security of electronic signatures to your ServiceNow platform by allowing designers and developers to include electronic signature steps in new or existing ServiceNow workflows.

Key Features

From new hire paperwork to vendor contracts, eSignifi keeps your end-to-end processes and workflows in ServiceNow without having to leave the system for manual signatures.

Leverage eSignifi to:

Eliminate the manual steps associated with signature/e-signature

Reduce the transaction time for signature/e-signature processes

Extend the value and capabilities of your ServiceNow investment

As both a ServiceNow and DocuSign Authorized Partner, General Networks built eSignifi leveraging best practices for both platforms and has the capabilities you need for a successful implementation.

Send, Sign, and Approve Documents From Wherever Life Takes You

Documents play a crucial role in business. Sales contracts, new bank accounts, tax documents, loans and rental agreements and more all require documents to complete the transaction. DocuSign accelerates these often manual, paper-based processes by helping companies complete them online from start to finish.

Delivering Business Results

- ➔ **SALES:** Close more deals faster
- ➔ **PROCUREMENT/SUPPLY CHAIN:** Lock in pricing sooner to drive out cost
- ➔ **IT:** Drive efficiency and reduce cost by automating paper business processes
- ➔ **HR:** Turn a verbal "yes" into a signed offer in minutes
- ➔ **LEGAL:** Increase control, visibility and compliance
