# HOW TO STREAMLINE AND ACCELERATE YOUR WORKFLOWS WITH ELECTRONIC SIGNATURES

Seamlessly Integrate ServiceNow® with DocuSign® Using eSignifi

## What is eSignifi?

eSignifi is a ServiceNow app that integrates the convenience and security of DocuSign electronic signatures with the ServiceNow platform. Organizations can keep their end-to-end-processes and workflows in the ServiceNow platform without having to leave the system for manual signatures.

### REDUCE TRANSACTION TIME

Cut electronic signatures process times in half. Documents get completed and signed in minutes, radically reducing time spent preparing, sending, tracking, reconciling and handling documents.

### EXTEND THE VALUE

Get the most out of the capabilities of your ServiceNow investment. Drive comprehensive workflows without leaving the ServiceNow platform with the added convenience of signing anytime, anywhere, on any device.

## BEFORE

**Tedious Workflow Steps Before eSignifi**

Below is a typical workflow example of using the ServiceNow platform to set up a non-disclosure agreement (NDA) for a new vendor.

1  
Go into the ServiceNow platform.

2  
Set up a new vendor.

PENDING

3  
ServiceNow generates a NDA 'pending' status.

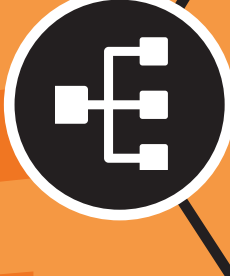

4  
Go to your files, pull up the NDA template and fill in all the blanks manually.

5  
Print file, sign it and scan it.

6  
Create an email to the vendor, attach the file and send it.

7  
The vendor gets the email, prints the document, signs it, scans it, & emails it back.

8  
The final signed document is loaded back into the ServiceNow platform.

**IT**

Drive efficiency & reduce cost by automating paper business processes

## AFTER

**Efficient Workflow Steps with eSignifi**

Below is a typical workflow example of using eSignifi with the ServiceNow platform to set up a non-disclosure agreement (NDA) for a new vendor.

1  
Go into the ServiceNow platform.

2  
Set up a new vendor.

3  
The workflow begins. It pre-populates the template and emails the NDA to vendor.

4  
The vendor receives the email, signs the document electronically, and the document shows up as signed in the system.

**HR**

Turn a verbal "yes" into a signed offer in minutes

## ServiceNow & DocuSign Authorized Partner

As both a ServiceNow and DocuSign Authorized Partner, General Networks built eSignifi leveraging best practices for both platforms.

### LEVERAGING BEST PRACTICES

With a strong understanding of both platforms, we have the capabilities you need for a successful implementation.

### ENSURING YOUR SUCCESS

Providing comprehensive support services to optimize your eSignifi deployment and DocuSign/ServiceNow integration.

**LEGAL**

Increase control, visibility & compliance

BRONZE TECHNOLOGY PARTNER
